LED Body Mirror with Stand

INSTALLATION STEPS

Step 1: Use a tape measure to measure the distance between the two holes on the mounting bracket; Mark the location of the two holes on the wall with a pencil

Step 2: Use a drill to punch holes at marked points; Use hammer to drive the wall anchor; Install the bracket with a screwdriver

LED Body Mirror with Stand

Step 3: Hanging the mirror on the wall by the 2 brackets(one on the back of the mirror, the other on the wall)

LED Body Mirror with Stand

Step 4: Choose your power supply method:

SITUATION 1: there has wall outlet near by the place you want to install, just plug into wall outlet then enjoy your LED mirror!

SITUATION 2: there has NO wall outlet near by the place you want to install, you need to cut the the plug off to wire it with junction box.

Cut the optional plug off
to direct wire to junction box
